

Dogs in the hotel

All our guests should feel at home with us, whether they have dogs or not. That's why we have set up some rules:

- Please keep your dog on the entire hotel area (house and garden) always on a leash
- As a courtesy to other guests, pets are not allowed neither in the dining room nor in the salon.
- If the dog suffers from separation anxiety when the owner is absent, it should not be left alone in the room. A stay in your own car makes it easier for the dog to bridge the waiting time stress-free.
- For reasons of hygiene, we do not want the dogs to sleep in the hotel beds nor on upholstered furniture. (The hotel provides protective covers).
- During night, the dog should out of consideration for other guests, behave quietly. If this is not possible, let your dog stay in the car during night.
- The feces of dogs must – out of consideration for other guests and for reasons of hygiene – always be removed. The obligation for dog owners to clean up after their dogs is also publicly required in the Franches Montagnes/Jura region, as cows and horses can die from droppings of dogs. In addition, please do not let your dog pee against walls, garden furniture, children's games, et.

The team of the Hotel de la Chaux- d'Abel thanks you for your understanding and wishes you a relaxing stay.
